

To whom it may concern -

The latest attempts by the NAB to stop XM Radio from broadcasting local traffic and weather is insane. I find XM's coverage of my local traffic to be timely and informative. Having to wait on one of the "regular" FM or AM stations can mean the difference between me being stuck in traffic, and getting where I need to be on time.

I urge you to reject petition 04-160.

Respectfully,

Bill Neilson
